Charging Cradles for the SoMo® 655

Sync-Charge Cradle / Four Bay Charging Cradle

Sync and/or charge your SoMo 655 with or without the DuraCase protective case.

BENEFITS

- Rapid Turnaround — Avoid downtime by always having your SoMo charged and ready to use. Charge the SoMo while also charging a spare battery (not included).
- Synchronize Data — Use the Sync-charge cradle to connect and synchronize through the host PC's USB port.
- Easy to Use — Removable spacer in the cradle makes it possible to insert the SoMo with or without the DuraCase protective case. With or without the DuraCase, the cradles are designed for single-handed insertion and removal of the SoMo 655.
- Durable — The new robust connector is designed specifically for docking applications. The connector and supplemental alignment posts protect electrical contacts during insertion / removal.
- Docking Station — The cradle provides a designated place for your SoMo. In addition to charging and synchronizing, the sycn-charge cradle keeps the SoMo fully operable while charging, and is equiped to attach peripherals like a keyboard, mouse, a USB memory stick, Ethernet adapter, etc.

USER SCENARIOS: WHICH CRADLE SUITS YOUR SITUATION?	
Sync-Charge Cradle	- Synchronization to host computer is required - Heavy use, full shift, by a single user - Antimicrobial version is ideal for for use in healthcare and hospitality
Four Bay Charging Cradle	- Heavy use, full shifts, by multiple users - Large, central deployment of units such as warehousing or pick-and-pack operations - Multiple units at one location, like delivery drivers - Shift workers, trading off units with each shift

SYNC-CHARGE CRADLE

- One Sync-charge bay and spare battery well per unit
- SoMo remains powered while it is charging
- SoMo stands upright in the cradle, so you can still view the screen and interact with the device while it is charging
- Durable connector design
- Removable spacer comes with each unit
- Attach peripherals and accessories

PERIPHERALS AND ACCESSORIES

The SoMo Sync-charge cradle is designed to accommodate peripherals and accessories:

- 2 USB ports (host v1.1, client v2.0) Connect a keyboard, mouse, external drive, ethernet adapter, etc.
- Use the cradle as a powered USB hub

FOUR BAY CHARGING CRADLE

- Four charging bays and spare battery wells per unit
- SoMo remains powered while they are charging
- SoMo stands upright in the cradle, so you can still view the screen and interact with the device while it is charging
- Durable connector design
- Removable spacer comes with each cradle bay

ANTIMICROBIAL VERSION

Both the Sync-Charge Cradle and the Four Bay Charging cradle come in Rx versions made with antimicrobial plastics for use in healthcare and hospitality.
